

DESIGN YOUR OWN CASE

Galaxy S6 Template

For Best Results Please Follow These Steps :

- 1.** Everything that is black will be engraved. Please fill in all text and shapes that you would like to have engraved on the case.
- 2.** If the design is not within the lines of the template it will not be on the case.
- 3.** Please try to avoid extremely small details because once engraved on the case it is very hard to see.

* You may also print this template, draw a design on the template, and take a photo with your phone and upload it. When taking the photo of the design, please take a well lit photo directly above the design.
